ALIAS[®]

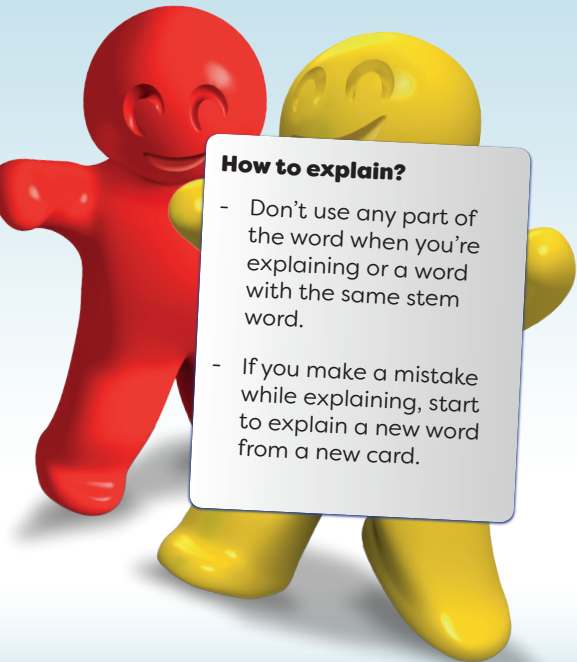

This is Alias at its best – you won't need a game board or a timer, just the cards and a die!

Content:
100 word cards,
1 die.

How to play?

1. Take turns explaining one word at a time to the other players.
2. Draw a card and roll the die to see which word to explain.
3. When you explain, all the other players guess as many times as they want. The player, who guesses the word right first, gets the card.
4. The first player with 3 (or 5 or 10) cards wins!

How to explain?

- Don't use any part of the word when you're explaining or a word with the same stem word.
- If you make a mistake while explaining, start to explain a new word from a new card.
